SUMIT DANGI

SOFTWARE ENGINEER

+91 7974135629 sumitdangi8455gmail.com Linkdin GitHub

TECHNICAL SKILLS

- Experienced in Web Development using HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, Vite, Node.js, Express.js, React Native and EJS for building full-stack applications.
- Proficient in UI/UX Design using tools like Figma and Canva for creating modern and responsive interfaces.
- Skilled in working with databases such as MongoDB and MySQL, and familiar with REST APIs and JWT Authentication.
- Comfortable with programming languages including Java, and experienced with development tools like Git, GitHub, Postman, VS Code, and Docker (basic knowledge).

ACHIEVEMENTS & CERTIFICATIONS

- **Participant in SAGE Showcase** – Models For Future, organized by SIRT Bhopal (2025)
- **Completed Introduction to Front-End Development Course** from **Simplilearn SkillUp** (March 2025)
- **Certificate of Appreciation** from **DevTown for contribution & community support** (June 2025)
- **Completed 1-Month Internship in Web Development at SkillCraft Technology** (July–August 2025)
- **Microsoft Learn Student Ambassador – Certified** for **Fundamental Course** on **Agentic AI**
- **Participated in Bharatiya Antariksh Hackathon 2025 – ISRO, acknowledged** for **innovation & idea submission**
- **2nd Runner-Up in Hack Days Bhopal Hackathon, organized by Knowvy Technologies, TIT & MLH** (October 2025)
- **Participated** in **SUNHACKS 2K25 International Hackathon at Sandip University, Nashik** (August 2025)
- **Participated in DRISHYAM 2025** organized by **NEXURA** at **UIT-RGPV Bhopal** (November 2025)

EDUCATION

- **Bachelor of Technology (B.Tech)** – Computer Science & Information Technology
  Sagar Institute of Research and Technology (SIRT), Bhopal, Madhya Pradesh
  Batch: 2023 – 2027 (Pursuing)
- **Senior Secondary (12th) – Science**
  M.P. Board of Secondary Education (State Board), Bhopal
  Passing Year : - 2023
- **Secondary (10th)**
  M.P. Board of Secondary Education (State Board), Bhopal
  Passing Year :- 2021

PROJECTS

- **WanderNest – AI-Powered Accommodation Listing Platform**
  Node.js, Express.js, MongoDB, EJS, n8n Automation, AI Agents

  Built a full-stack accommodation listing platform that allows users to browse, create, and view detailed property listings. Integrated n8n automation and AI agents to enhance listing creation and user experience
- **AI Chat Platform (Mini ChatGPT Clone)**
  Built a secure AI-powered chat platform using React, Tailwind CSS, and Material UI for the frontend, and Node.js/Express for the backend. Implemented user authentication with bcrypt and crypto-based security. Integrated LLM APIs to support real-time AI responses with conversation memory. Added automation workflows using n8n for tasks like message logging, summarization, and agent-based processing. Containerized the entire application using Docker for easy deployment and scalability.
- **Real-Time Video Conferencing Platform (Zoom Clone)**
  Built a real-time video calling platform similar to Zoom using WebRTC, Socket.io, Node.js, and React. Implemented secure room creation, peer-to-peer media streaming, screen sharing, chat messaging, and participant management. Added JWT-secured authentication, meeting scheduling, and responsive UI with TailwindCSS & Material UI. Enhanced features using n8n automation for meeting reminders, activity logs, and event-based notifications. Containerized with Docker for scalable deployment.
